

# ANALYZING MODERN HOME LAYOUTS

— Applying Yi Jing Feng Shui to Unveil Household Fortune

## Feng Shui Analysis and Remedies for This Floor Plan

Based on this layout, the following insights can be observed:

The father's health may be weak, and longevity could be a concern.

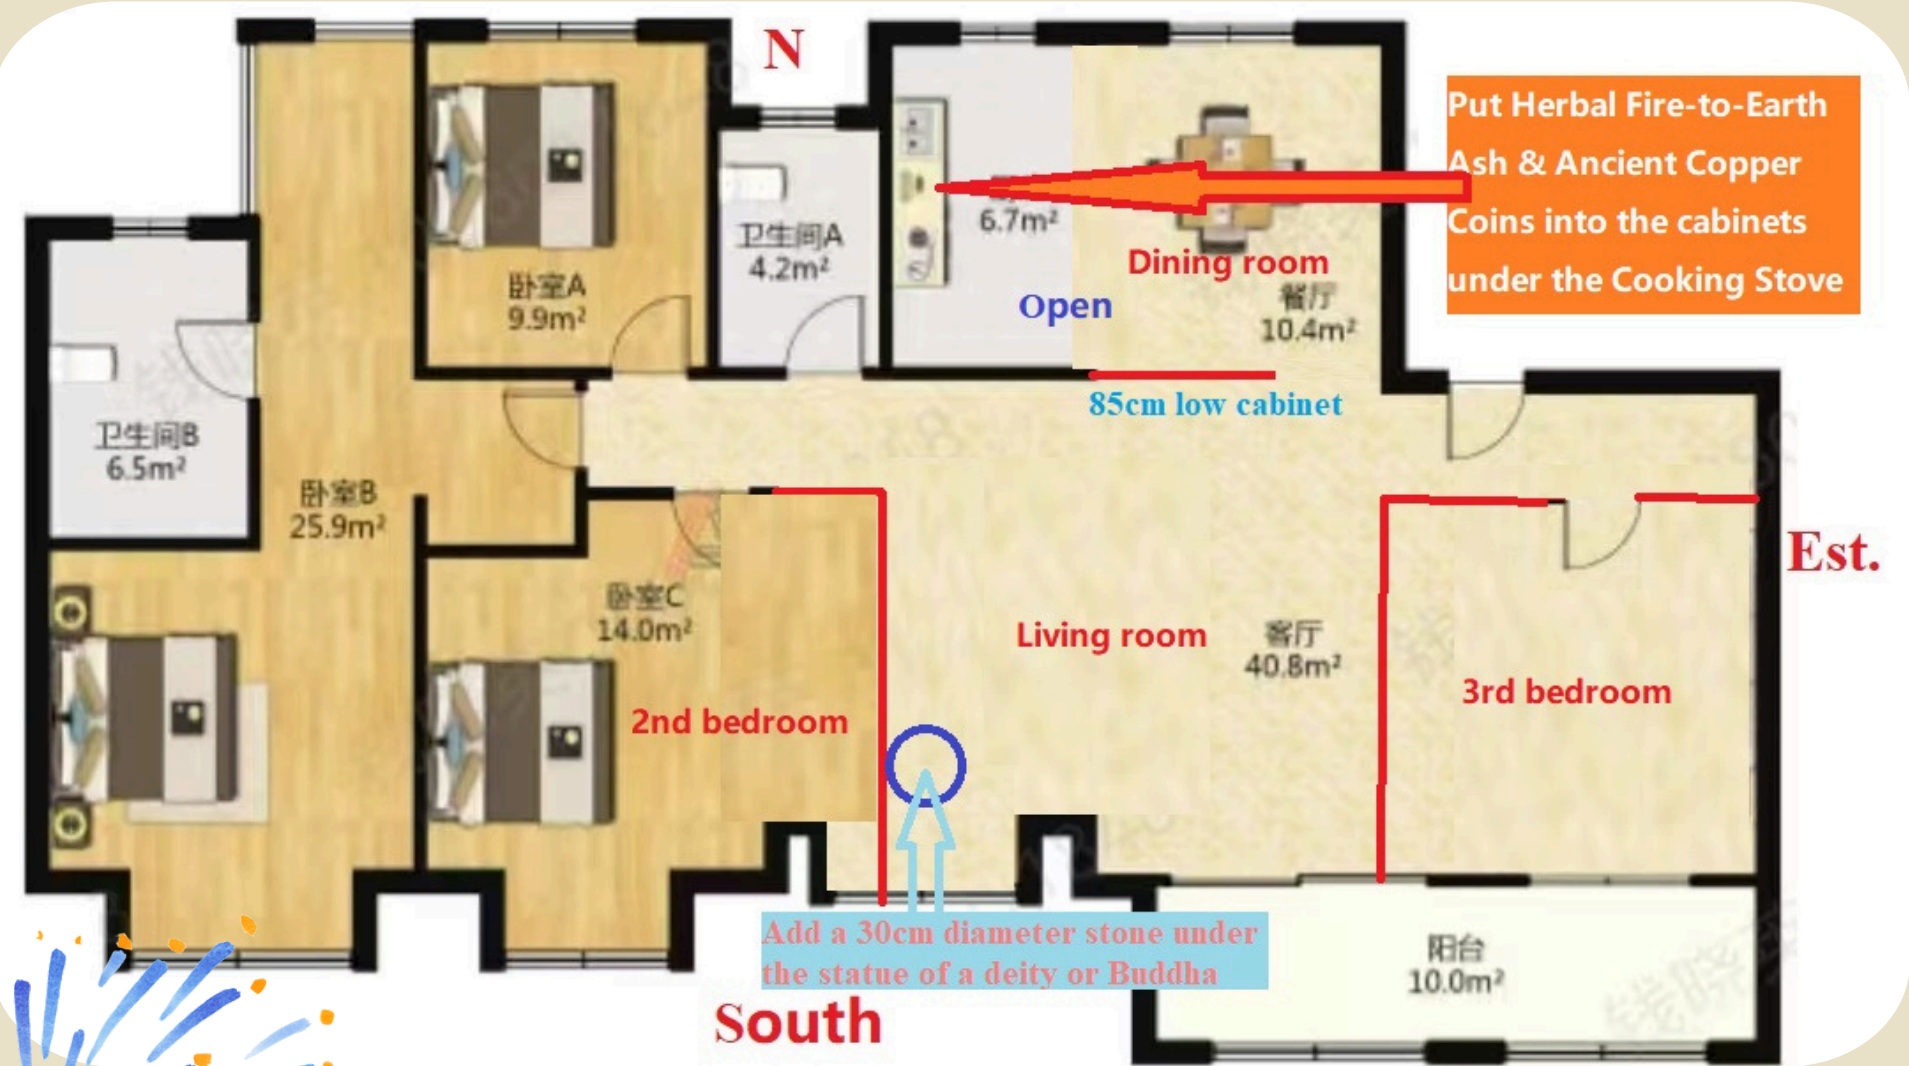

The family's moral integrity may be compromised, leading to male family members experiencing problematic romantic entanglements. Such issues could negatively impact their career and overall stability.

Fertility may be a challenge, making it difficult for the household to conceive children.

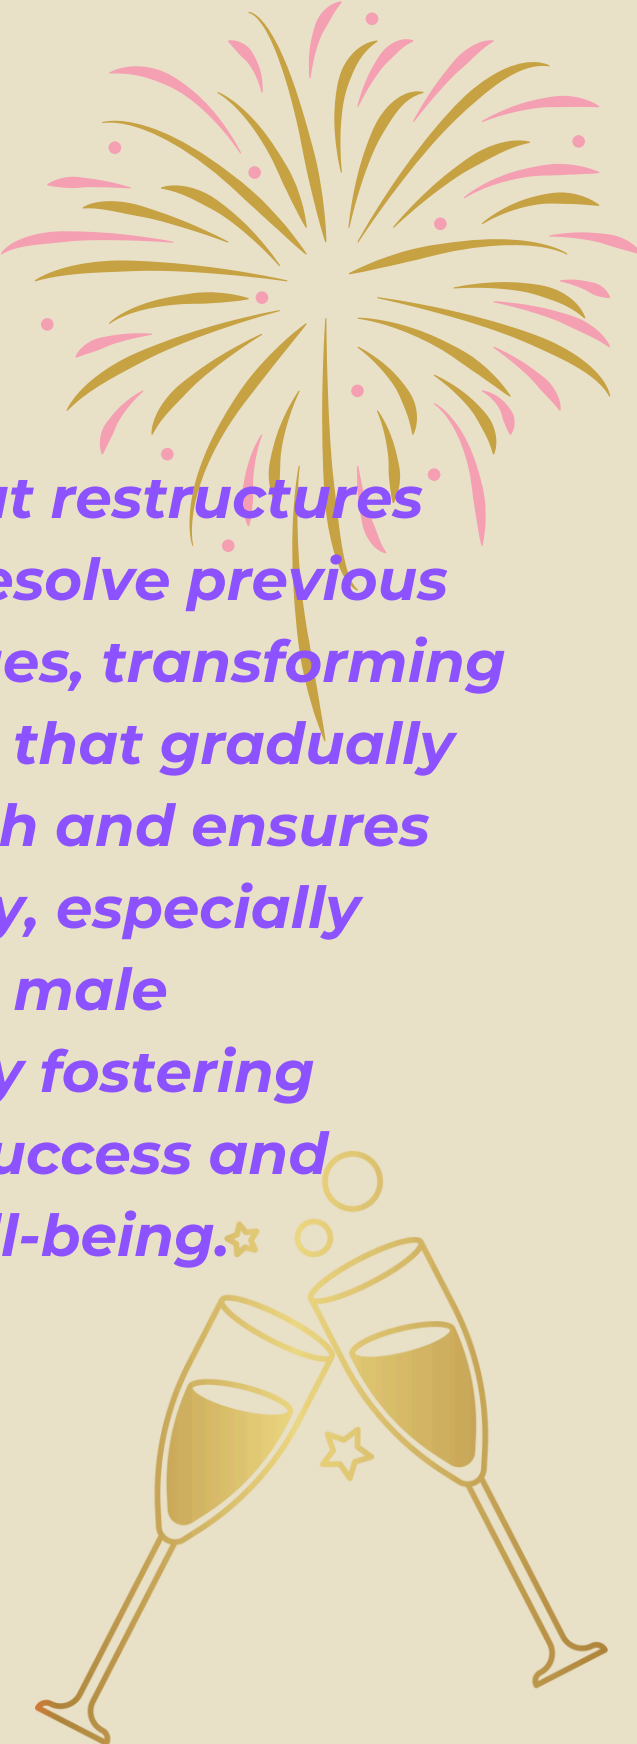

To mitigate these influences, specific Feng Shui adjustments should be considered to harmonize the energy flow within the home.

# REVISED HOME LAYOUT FOR STABLE WEALTH AND CAREER GROWTH

*The new layout restructures the home to resolve previous Feng Shui issues, transforming it into a space that gradually attracts wealth and ensures career stability, especially benefiting the male homeowner by fostering professional success and emotional well-being.★*

## Feng Shui Adjustment Plan for the above new layout

1. *Relocate the third bedroom to the opposite side of the living room. Construct the right-side wall of the living room in line with the dining area and the left-side wall in line with the kitchen wall to create a more structured and balanced layout.*
2. *Convert the kitchen into an open-plan design, expanding the dining area. Extend the kitchen wall and add an 85cm-high low cabinet, serving as a partition between the kitchen and dining/living area.*
3. *Place a deity or Buddha statue in the southwest corner of the living room, with a 30cm diameter stone underneath to enhance stability and prosperity.*
4. *Store a small amount of herbal fire-to-earth ash and nine ancient copper coins inside the cabinets beneath the cooking stove to neutralize potential crises related to the male elder or the male homeowner, ensuring stability and protection.*

*This Feng Shui adjustment aims to create a home environment that supports financial growth, career stability, and overall well-being.*
