

The Integrated Application of Multiple Divination Methods

Case Analysis:

BaZi, Six Lines, and Feng Shui Impact on My Client's Son's Health

A few years ago, the son's BaZi was analyzed and I advised that he moved to the south for study and living. He initially attended university in the south, but by the end of 2023, he took a leave of absence and returned to Shanghai due to illness.

Divination & Observations: First Divination by Six Lines(Not Saved):

The hexagram indicated that the child was experiencing dizziness and chest tightness, making it impossible to attend classes. Later, upon meeting in person, the son confirmed that these were exactly his symptoms.

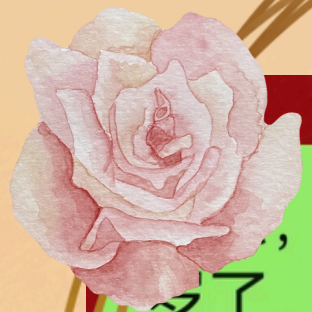

Key Findings:

- Clash with Tai Sui: The reading revealed that the son was clashing with Tai Sui in 2023. The father confirmed that he usually performs Tai Sui rituals every year, but in 2023, he skipped the ritual.
- Feng Shui Issues Affecting Health: The house's Feng Shui was severely impacting the child's health. Even though he studied in the south, he lived in Shanghai for a long time. The northeast section of the house contained a Sha formed by fire-shaped negative energy, leading to poor sleep quality. The son confirmed that his bedroom was on the second floor in the northeast, where there was a power pole outside and a transformer box inside, causing severe insomnia.

Conclusion & Recommendation:

Since the family's business was thriving, they believed they were living in a house with good Feng Shui. I suggested that the mother provide the floor plan, and upon review, it turned out to be an irregularly shaped house. Although their business was doing well, the house was detrimental to the family's health. I advised that it was not suitable for long-term residence and recommended relocating as soon as possible.

I have a friend whose child is clashing with
Tai Sui this year. She needs a private Tai Sui
ritual. How much does this ceremony cost?

Private Tai Sui Ritual

Tai Sui for the Year of Yi Mao (2023)

In addition to recommending relocation,
arrangements were also made with a Taoist
temple to conduct a Tai Sui ritual for the Year
of Gui Mao (2023).

This case applied three different Yi Jing methods—BaZi, Liu Yao
divination, and Feng Shui—to make an assessment, provide guidance, and
offer remedies.

When making predictions, we often integrate multiple divination
techniques to enhance accuracy and precision in our judgments.
